Featured ED2GO Classes: Soft Skills Suite (*includes all four classes)

Achieving Success with Difficult People

Do you know people whose behavior makes completing even the simplest tasks difficult? Would you like to learn how to have more successful relationships with difficult bosses, co-workers, students, neighbors or family members? Join this class and get helpful information for understanding yourself, solving people problems, and improving your relationships and personal and professional productivity.

Interpersonal Communication

Communicating successfully depends on effective use of communication strategies and behaviors. Words, facial and body movements, tone of voice, even clothing and situation, all form an intricate symbol system that must be quickly translated by those who want to communicate. This course will show you how to manage the conscious and unconscious codes of meaning we send to each other and to respond with appropriate codes in turn. Communicating is necessary. Knowing how to do it well is personally satisfying and professionally wise.

Skills for Making Great Decisions

Learn how to make excellent everyday decisions from an experienced counselor and life coach. You'll discover the steps necessary to achieve your goals, as well as the power that ordinary, everyday decisions can have over the quality of your life. You'll develop some important guidelines for when to take risks, when to trust your luck, and what to do if you make a mistake. The goal of this course is to give you the power to live the best life you can and make the very most of every opportunity.

Individual Excellence

Develop career-enhancing skills in a single course that covers twelve popular one-day seminar topics, including goal setting, time management, and personal organization. You'll learn how to improve your creative abilities, gain confidence with financial matters, and how to minimize conflict in your life. Develop a fulfilling career plan and improve relationships with co-workers, friends, and family.
