By considering the effects of inaction, you'll realize that the potential positive outcomes can far outweigh perceived risks. Listen to the possibilities in this Professional Organizing class in how you can improve your life through finally choosing what stays and what goes. Learn why you can't keep your house tidy. Listen to ways in which your decision making to discard or keep objects has a bit to do with your personality and mostly to do with inaction. In this class, you'll be taught to visualize your space within your home walls and finish with discarding.

Introduction to PC Security

Learn why you're at risk and what you can do to protect your precious personal and business data from the outside world. This 6-week course, taught by a security expert, will quickly bring you up to speed on the fundamentals of PC and network security.

You will understand and explore the vulnerability of operating systems, software, and networks. Then, you'll get into the minds of hackers and crackers, developing an understanding of the exploits they use to access your computer without your knowledge. You will find out why, where and how viruses, worms, and blended threats are created. You will learn a safe way to handle files and data across the Internet through a virtual private network. By the end of this course you will be able to install and configure a firewall to build an impenetrable moat around your computer or network.

Human Resources Professional

Are you seeking a career in a high-demand field with plenty of opportunity for advancement? In this online program, you'll master the skills needed to advance within your human resources career. In this program you'll explore everything from the basics of HR to specific areas such as planning and strategizing, human resource laws, hiring disciplines, and labor relations. You'll also obtain a reference manual of HR documents. By the time you're done, you'll be fully prepared to begin your career in this exciting and challenging field. You will even receive instruction and insight on how to obtain an internship or externship upon the completion of the program.
