A concise course for students who want to develop rapid skills in drawing. We will cover drawing materials, uses of paper, lines and tones, flat to three-dimensional drawings, realistic drawings, working with focal points, composition, perspective, texture of objects, use of light and shading, and proportions. Focusing on these points will provide skills to progress to different subjects, diverse mediums, and prepare you for ART 102 - Charcoals and Pastels (mid-February), ART 103 - paints (mid-March). Students will complete a quality original by the end of classes. Materials list provided at time of registration. Supply kits available to purchase for \$24 at time of registration.

ORGANIZATIONAL CLASS

Instructor: Ginny Rogers
Date: Wednesday, January 16 Time: 6:30 pm to 8:30 pm
Location: BOCES Building, Cost: \$10

By considering the effects of inaction, you'll realize the potential positive outcomes can far outweigh perceived risks. First, you must be willing to experiment and live intentionally rather than out of habit. To live intentionally you are able to become aware of the things that are most important. Listen to the possibilities in this Professional Organizing class and learn how you can improve your life through choosing what stays and what goes. Learn why you can't keep your house tidy. Listen to ways in which your decision making to discard or keep objects has a bit to do with your personality and mostly to do with inaction. In this class, you'll be taught to visualize your space within your home walls and finish with discarding.

Featured ED2GO Classes:

Resume Writing Workshop

Create an effective resume or improve the one you already have. Transform your resume into a powerful tool that will get you interviews. This workshop will lead you through a self-assessment series so you will have extensive knowledge about the product you are marketing YOU! Learn different resume formats and the advantages and disadvantages of each. Write an employment objective that shows potential employers that you have direction. Make the most of your work experience. Know what to reveal in a resume, and what to keep to yourself. Learn to overcome gaps in work history and age discrimination. Discover how to use references to your advantage. This course includes the use of online resumes and Internet Resume Secrets. This course is invaluable for anyone who wants to create their own resume, or learn how to write resumes and cover letters for profit.

Computer Skills for the Workplace

Most jobs today require a working knowledge of certain computer skills. Employers seek and reward employees with the skills and knowledge to send messages across the country via e-mail; use a spreadsheet to create a graph and paste it into a report; add and edit data in a database; understand the implications of file sizes, memory limitations, and network arrangements; and recognize the function and features of modern computer components. Any job candidate who already possesses these skills will stand above those who do not.

This course is a great introduction to Windows 10 and Office 2016 and is designed to provide the fundamental computer competencies you need to survive and prosper in today's fast-changing workplace. You will learn how to implement the powers of modern office software to work faster and more efficiently. We'll focus on practical application for software most common to the workplace. When you finish this course, you will have learned why employers consider technological literacy so critical to the success of any organization.
