By considering the effects of inaction, you'll realize the potential positive outcomes can far outweigh perceived risks. First, you must be willing to experiment and live intentionally rather than out of habit. To live intentionally you are able to become aware of the things that are most important. Listen to the possibilities in this Professional Organizing class and learn how you can improve your life through choosing what stays and what goes. Learn why you can't keep your house tidy. Listen to ways in which your decision making to discard or keep objects has a bit to do with your personality and mostly to do with inaction. In this class, you'll be taught to visualize your space within your home walls and finish with discarding.

Register online at www.KemmererOutreach.com or call the BOCES at (307) 877-6958.
